CardioChek Link 3.1

New Updated Features Available

Part of the CardioChek Connect Family of Products

Features of CardioChek Link 3.1

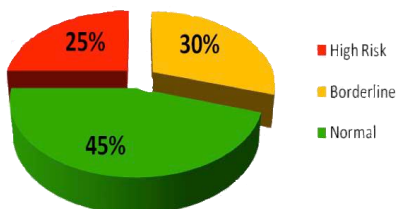

- Transmit test results directly from a CardioChek PA device to a computer.
- Automatically save results into a spreadsheet application, such as Excel.
- Save multiple results to the same spreadsheet for easy aggregation of data.
- Save time and minimize the risk of transcription errors.

Once the results have been saved in a spreadsheet, the data can easily be formatted for aggregate reporting, data mining, and graphical representation.
